Hard Skill

- Web Development
- Data mining and analysis
- Programming languages - Python
- Database Management
- Cloud Computing & Generative AI

Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

Education Background

- Hyderabad Institute Of Technology And Management
Bachelor of Technology in AI and Machine Learning
2026

Hobbies & Interests

- Filmmaking
- Coding Challenges
- Exploring AI Innovations
- Data Analysis

About Me

A driven and proficient recent graduate currently pursuing a Bachelor's degree in AI and Machine Learning, equipped with a solid background in programming and data analysis. I am actively seeking a stimulating position that will allow me to leverage my technical expertise and make meaningful contributions to significant projects.

Professional Experience

Fresher

- Developed a strong foundation in AI, Machine Learning, and Web Development
- Gained experience in collaborating with peers on group projects, enhancing teamwork and communication skills.

Achievements

- Top Performer in MS Excel for Data Analysis

Projects

- Text-to-Audio Converter using Python
- Age Detection System with OpenCV
- Personal Portfolio Website with HTML, CSS, and JavaScript
- Patient Appointment Scheduling System implemented through Greedy algorithm

Certifications

- Python Core and Advance – Kosmik Technologies, Hyderabad
- Cloud Computing and Generative AI – Google Developer Students Club
- MS Excel for Data Analysis – Udemy
